35mm Slides:

All slide orders include cleaning and automatic up convert to 1080dpi. We have the ability to scan at very high resolution (6400 x 9600 and higher). We can meet the demand for our Corporate and Industrial customers as well. All slides include DIGITAL enhancement technology no extra charge. Our sophisticated software is one of the best technologies available today. Digital enhancement will digitally smooth-over scratches, lint and dust from all your old slides giving a more crystal clear image. You'll think your slides were brand new! The best part unlike a lot of our competitors, we don't charge extra for it!

**|0-50 slides: .45ea| |51-200 slides: .40ea| |201-350 slides: .35ea|

Message from the owner, Nicholas Cinelli:

Thank you for taking the time to learn about our company and why we take so much pride in helping you, the **customer**, preserve your **family memories**. MyDVDTransfer.com understands how important your family memories are. We also understand the meaning of value. The meaning of offering customers the most value for their dollar. Good old-fashioned America business, as we like to say. The way business use to be and the way business ought to be now-days. People shouldn't have to spend hundreds of dollars converting a few family videos to DVD. With MyDVDTransfer.com, we promise that you'll never have to!

Compare and you will see that most other companies have hidden fee's, inflated shipping charges, setup fee's and even the most recent one we have found, "DVD Burn Fee". All our prices include shipping, 2nd DVD Set FREE and FREE protective sleeve with each DVD. A lot of customers ask us, "Why do you give a 2nd set free?" The reason is very simple and makes a lot of sense. We understand these memories are important to you, keeping them for a long time and for future generations to enjoy is critical. DVD's can break, scratch and become easily lost due to their small size. MyDVDTransfer cares about you the customer, we want you to have one set to use and the other set to store for backup just in case you lose one or in case it becomes damaged. We enjoy looking out for your best interest; we enjoy doing what is best for you, the customer!

Regards,

Nicholas W. Cinelli - President

[*We convert and transfer any form of media to digital and DVD even BETA and U-MAX has a home at mydvdtransfer.com....](#)
